# The One Below

# Eta Carinae / Argus

[https://en.wikipedia.org/wiki/Eta\\_Carinae](https://en.wikipedia.org/wiki/Eta_Carinae)

[Carina Nebula](#)

-Eruptions:

--1827: William John Burchell notes Eta Carinae brighter than usual

--1830s: John Herschel tracks the brightness of EC from South Africa, noting that it outshone Rigel in 1837, and was even brighter in 1838

--1843: March 11th to 14th, Peak Brightness
